## Advanced Technology Video Releases NEW Line of PIXIM SEAWOLF WDR Cameras

Coppell, TX – September 1, 2011 – Advanced Technology Video a leading provider of innovative video security surveillance solutions announces the release of the **P690WDR** series cameras – now a part of its ULTIMATE SERIES product family.

The P690WDR series features the **Pixim SEAWOLF** technology offering 690TVL-E resolution, progressive scan, unmatched WDR performance and TRUE D/N operation. The interior/exterior dome camera - **FDP690WDR** is housed in an IP66 rated housing intended for surface, flush or simple drop-ceiling wing design installations with a 2.8-12mm VF AI lens. The exterior vandal dome camera - **VDP690WDR** is housed in a rugged IP66 rated housing for more harsh environments with included 2.8-12mm VF AI lens. The **CBP690WDR** is a simple box style camera for use in general purpose applications when custom lenses and housings are needed. ATV supports the new P690WDR camera line with various mount accessories. All cameras are UL listed.

“We are extremely excited to be one of the first manufacturers to offer cameras employing the Pixim SEAWOLF technology to our distribution and dealer customers. Our customers will now be able to offer a tremendous all-lighting solution to their customers and in turn increase their sales with a great product with proven results in tough WDR applications”, reports Bob DeProspero, ATV’s Director of Sales.

**About Advanced Technology Video:** Advanced Technology Video is an industry leader in innovative security solutions including a complete line of H.264 HDR and VLDVR (Value Line) DVR’s, 600TVL day/night, 650TVL WDR, and 690TVL-E Pixim WDR cameras with on-board video analytics powered by IQ<sup>2</sup>™ technology, LCD/PVM monitors, high-performance PTZ speed domes and specialized covert cameras.
